Using Math to Juggle? - Juggling Experiments | HowStuffWorks Another application of mathematics with juggling is site-swapping. Site-swapping is a form of notation that describes a juggling pattern. Jugglers write site-swaps as a series of numerals representing how many beats each toss will take from throw to catch, which translates into how high each throw must be made in the pattern. The Mathematics of Juggling For example, the sequence 21 leads to both balls landing simultaneously in the same hand (although more complicated variants of site-swap notation permit more than one ball to be caught or thrown at the same time, a feat jugglers call multiplexing).

Juggling, maths and a beautiful mind | plus.maths.org Mathematical jugglers refer to strings of numbers such as 3 and 5,1 as juggling sequences or site swaps. Juggling sequences are for juggling what musical scores are for music. Juggling sequences are for juggling what musical scores are for music. The Science of Juggling Novice jugglers will opt for larger dwell ratios to emphasize accurate tosses. More proficient jugglers tend toward smaller values, especially when juggling three balls, because of a greater flexibility to shift the pattern.
